<https://bit.ly/tbp-may-08-2022-register>

Mr. Puran Dang Distinguished Alumnus, and Life Fellow of IIT Kharagpur, Chairman Emeritus of MIT Heritage of The Arts of South Asia with a select group of **world renowned experts and policy makers** including

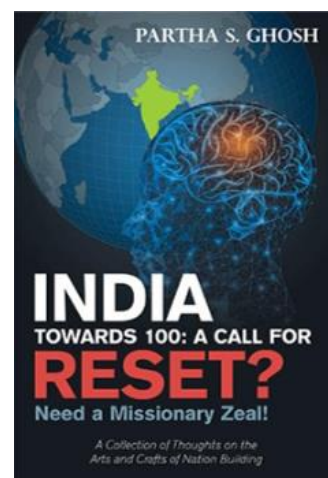

Dr. Sam Pitroda (Telecom Czar, Renowned Technologist and Advisor to 3 Prime Ministers of India), **Mr. Suresh Prabhu** (Chancellor of Rishihood University, Six times Member of Indian Parliament, Led ten different significant federal ministries) and **Mr. Gopalakrishnan** (Author of multiple books, Ex Vice-Chairman of Tata Sons)

will reflect on a recent book:

India towards 100: A Call for Reset! Need a missionary Zeal

A collection of thoughts on Arts & Science of Nation Building

to facilitate a discussion with the author

Dr. Partha S Ghosh

On new breakthrough moves India should adopt by: (i) drawing inspiration from **Vedic Philosophy** (ii) embracing “**cellularism**” beyond capitalism and socialism (iii) instilling “**central nervous economic system**” to foster **strategic approach** (iv) shifting economic equations from conventional cartesian to **biological/evolutionary** (v) nurturing **human centric** organizational models to cultivate work ethics and decision ethics that are globally competitive.

The Boston Pledge (TBP) is a non-profit 501(C) 3 organization that brings together outstanding professionals committed to public service to address issues at the base of the pyramid. It is our firm conviction and overarching belief that by (i) *transcending the constraints of self-interest and limits of national borders*, (ii) *providing outstanding leadership in channeling intellectual know-how and financial resources to individuals, groups, or government bodies working for the betterment of society* and (iii) *focusing on “uncovering the inner power” within people at the grassroots*. **Our goal is to create a virtuous, equitable, and sustainable society for all humanity.**
